WHO'S WHO

Among Students in American Universities and Colleges

Who's Who Among Students in American Universities and Colleges is published through the cooperation of over 600 American colleges and universities. These books are placed in the hands of companies who annually recruit outstanding students for employment.

The purpose of Who's Who is to serve as an incentive for students to get the most out of their careers, as a means of compensation to students for what they have done, as a standard of measurement for students, and as a recommendation to the business world.

Requisites for membership are character, scholarship, leadership in extra-curricular activities and potentially for future usefulness to business and society.
